

Gear Up for Ag™ Program Costs

Ag Health and Safety Alliance™ (AHSA) is committed to making the Gear Up for Ag™ Program accessible to the next generation of agricultural in all types of colleges, universities and high schools.

We are happy to work with you to explore funding options that can help bring the program to your students. This may include incorporating your institution into one of our existing grants, supporting your grant application process, or identifying potential local businesses or sponsors who may be interested in contributing. Costs associated with the delivery of the program include Gear Up for Ag Team time, mileage and lodging when needed.

A key component of our program is the distribution of personal protective equipment (PPE) to students, which we've found greatly enhances engagement and reinforces key safety messages. We offer two recommended PPE kit options but can also create a customized kit tailored to your students' needs and available funding.

Gear Up for AG™ PPE Kit - Option #1

Cost per student	PPE Items
\$3.00	Safety Glasses (Clear or Tinted)
\$.50	Ear Plugs (2 pairs - 2 types)
